## INTRODUCTION

Our interest in family genealogy and a desire to preserve our history has inspired this book and those to come. We hope you feel as we do, in that it is very important for the records of our country and those of our ancestors to be preserved for our future generations to enjoy. So many are being destroyed or deteriorating for various reasons. Those of you who have any records on your families (especially old Bible records) or any counties are urged to contact us or someone in an effort to record these vital records.

This is the second volume for the cemeteries in Caddo Parish, Louisiana. There will be several other volumes, as there are several other large cemeteries. We are finding many overgrown and lost cemeteries. If you have any knowledge of a lost cemetery in this area, please notify us.

This volume contains a survey of **Centuries Memorial Cemetery, Shreveport, Louisiana**. The Centuries Memorial Cemetery is a privately owned cemetery, which was founded in 1948 by Mr. Leonard P. Palmer, Sr. This has been a project of the members of Friends of Genealogy for about 14 years to complete. They have spent many hours copying and computer entry on this project. We have endeavored to copy every marker up through 2000.

Every effort has been made to prevent errors, but as we are human, there is the probability that some were made. Some of the stones were difficult to read. Names were copied exactly as they appeared on the markers, even though it was obvious in some cases that the spellings were in error. No name has been omitted intentionally.

This listing of Centuries Memorial Cemetery is compiled in sections that is arranged by row rather than alphabetically. Every effort has been made to make note of graves which did not have a marker at the time of survey. A map with individual sections shown is included in this volume.

Researchers should check with the Centuries Memorial office [8801 Mansfield Road, Shreveport, LA 71108] about double stones to see if both individuals are buried at the location. It should also be noted that the surname index includes obvious maiden names for women.

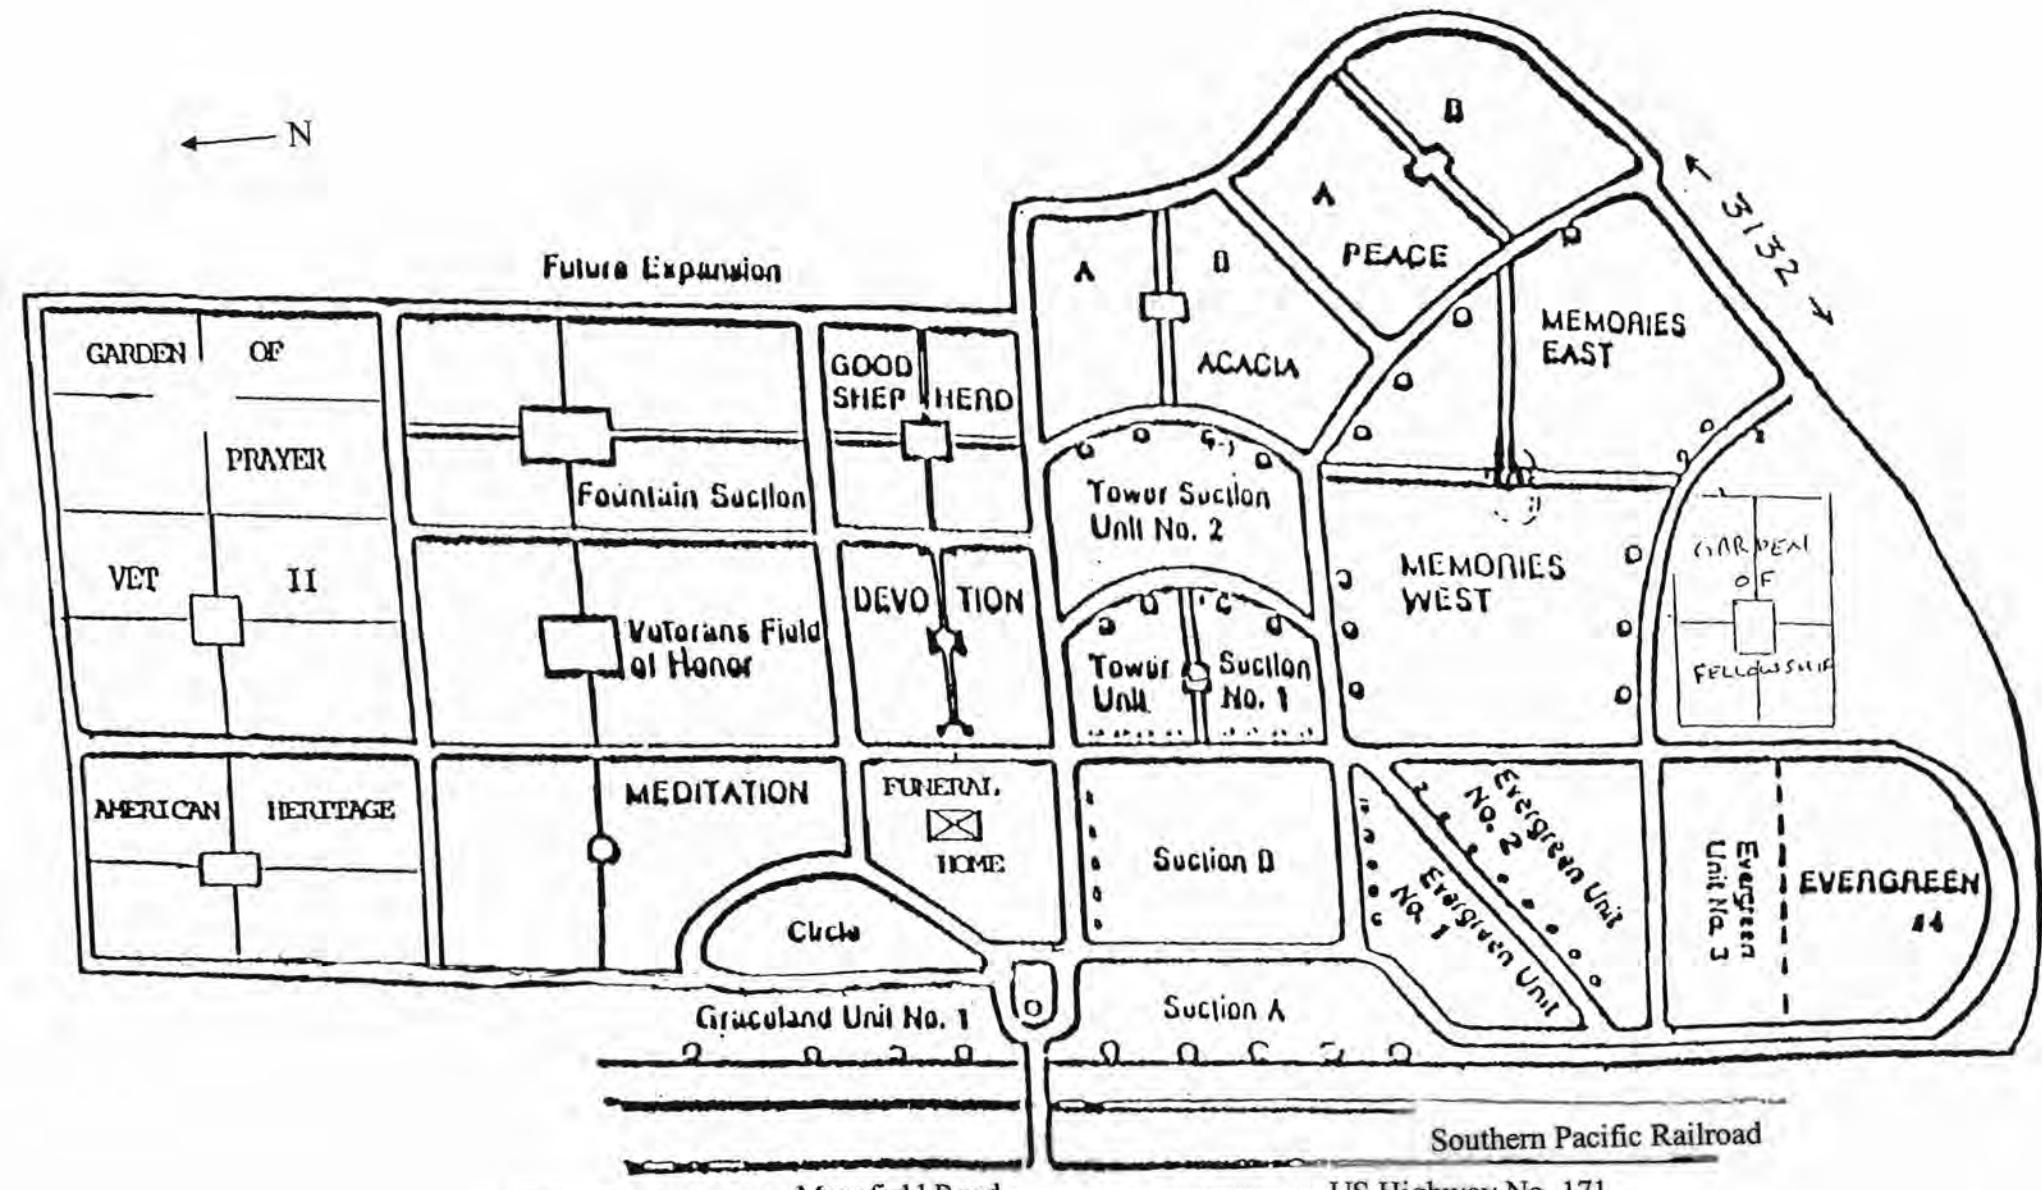

These records are not on computer nor are they on the Internet; however, the information is available on index cards in the cemetery office.

Some of the abbreviations used in this volume are listed below.
